

Ausili e strumenti per migliorare la qualità della vita

Artificial Physiology Lab @ iit
Istituto Italiano di Tecnologia
paolo.ariano@iit.it

Ageing research is an area of great social, political and economic importance for the European Union...

I want to re-focus research and innovation policies very clearly on developing a coherent strategic research agenda which will tackle the grand societal challenges, which include both the **promotion of healthy living and healthy ageing...**

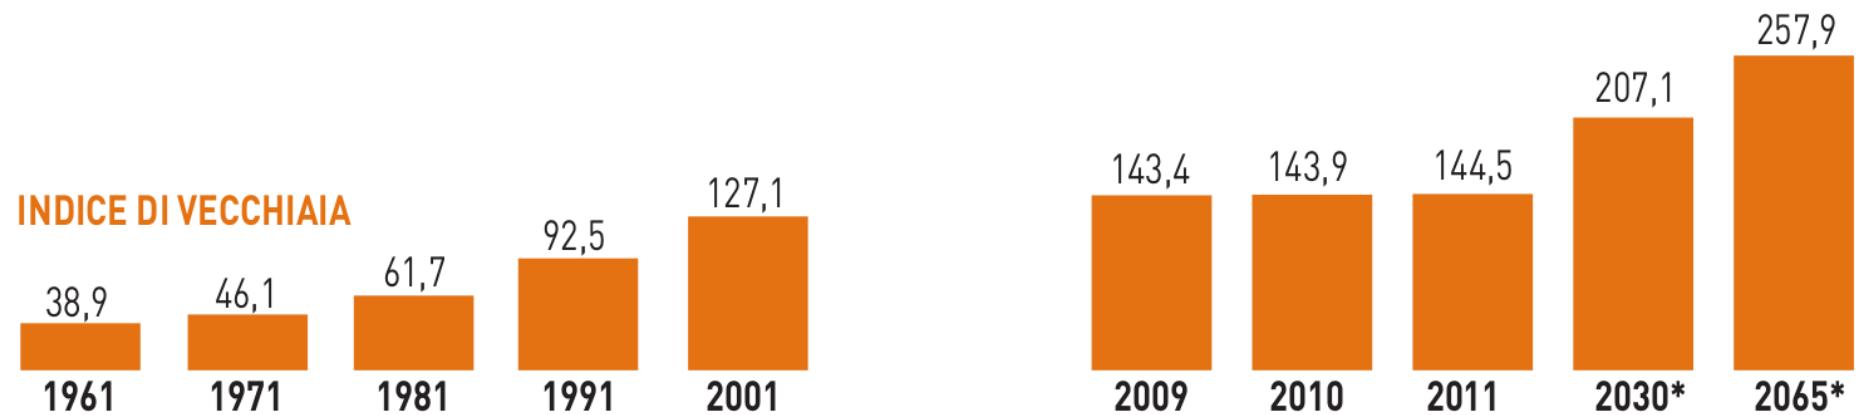

These challenges can only be confronted if **innovative and multi-disciplinary approaches** are taken.

Questo è solo la ToolBox per la TECNOlogia, e forse andrebbe completata ...

Cosa può fare la TECNOlogia ?

Potremmo immaginare insieme un Robot ...

... che sia di aiuto come una **badante**

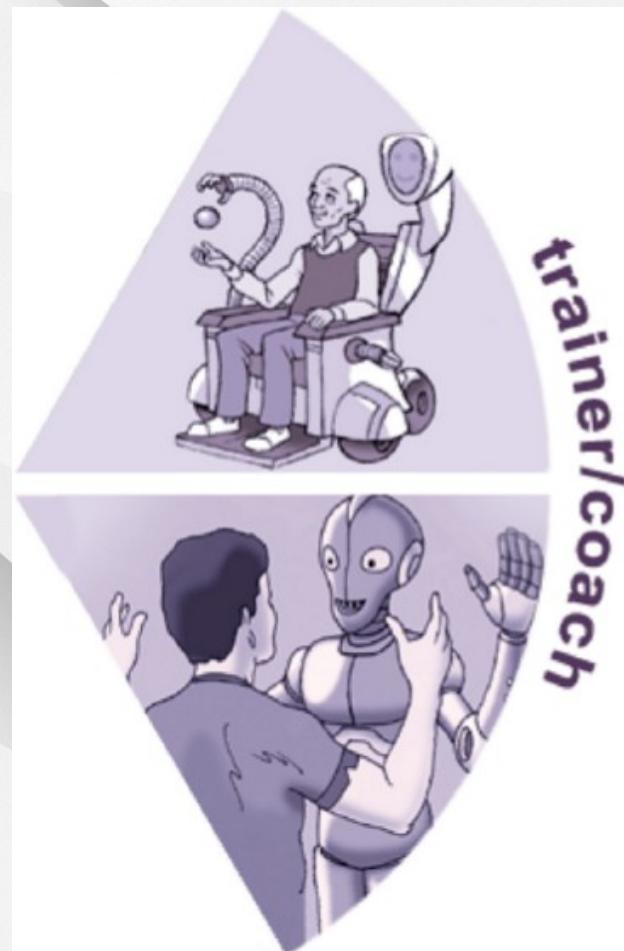

... che serva da **occhi e orecchie**

... che sia **facile da controllare** e con cui interagire

... che promuova la **socializzazione**

... che **migliori la qualità della vita dell'uomo**

Potremmo immaginare insieme un Robot ...

... che aiuti il fisioterapista
e/o l'allenatore

... che sia divertente
nell'interazione

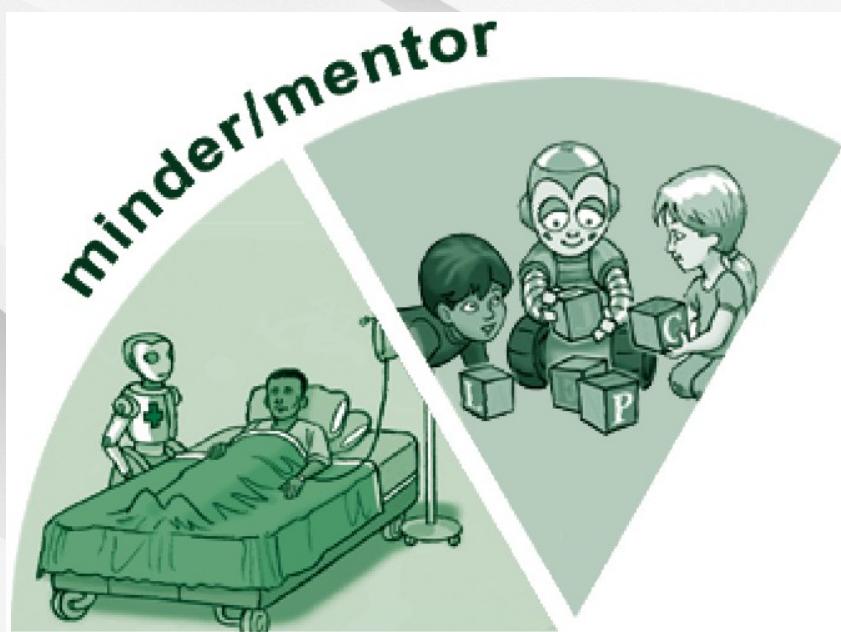

... che riduca l'impaccio e/o il
disagio

... che sia instancabilmente in
servizio 24-7

... che sia in grado di
richiedere l'aiuto di una
dottoressa o un infermiere

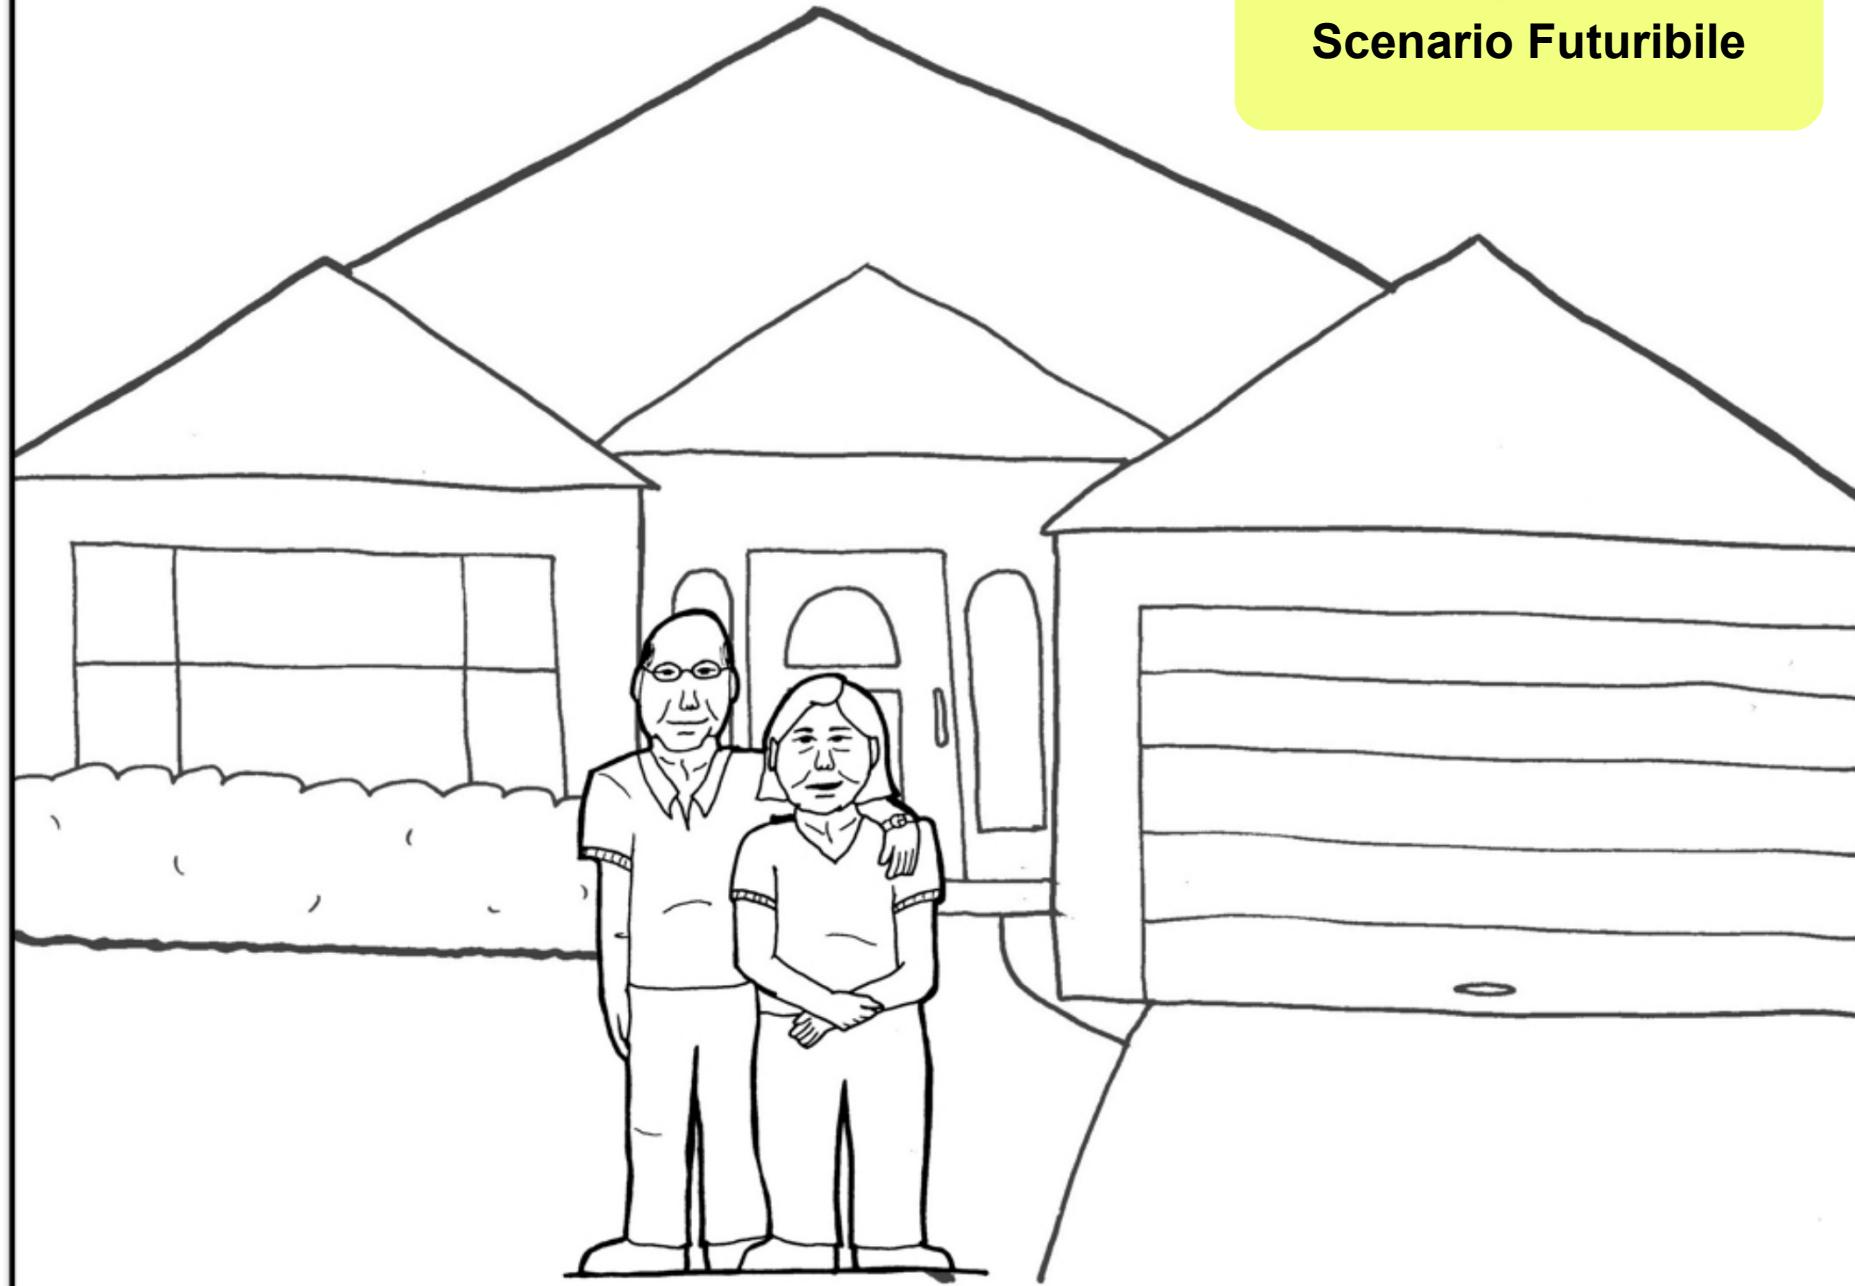

... che aiuti molte persone a
riguadagnare la propria
indipendenza

Potremmo immaginare insieme un Robot ...

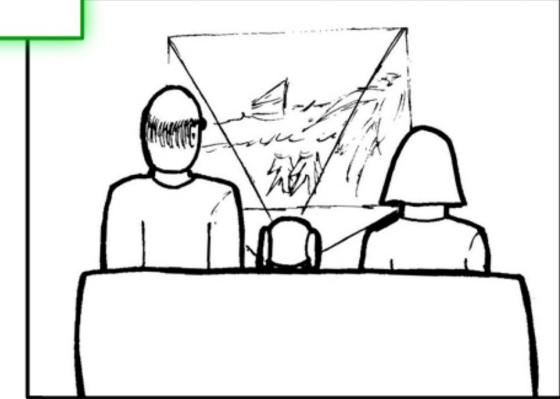

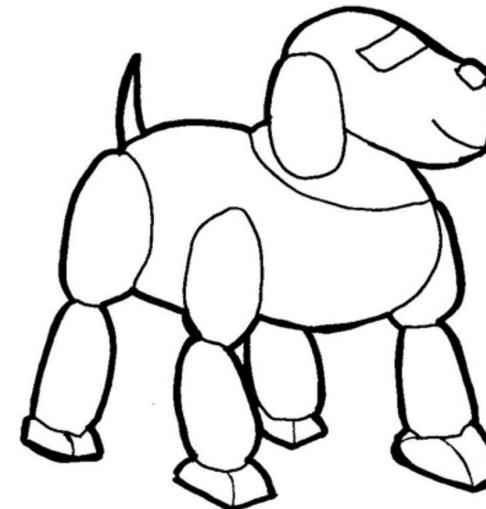

- ... che possa aiutare a **svelare i primi sintomi di disordini mentali**
- ... che possa dare un **supporto illimitato**
- ... che sia **personalizzabile**
- ... che sia **in grado di motivare**
- ... che **aiuti molte persone a condurre una vita che le soddisfi**

Quanto è credibile su larga scala ?

Community Matters

casserole
REIGATE & BANSTEAD

Casserole is a unique food sharing network, bringing local communities together around delicious home-cooked food.

why it matters

Lots of people are keen to volunteer in their local community but lack time and aren't able to make the regular time commitment that more traditional volunteering opportunities often require.

However, many people cook at home regularly and are happy to cook an extra portion of food and deliver it to someone close by who needs it.

Casserole provides a new way for people to 'micro volunteer' as well as promoting connections between people of all ages in a local community.
